Wednesday, May 15 th	
1:30 p.m. -3:00 p.m.	3:30 p.m. - 5:00 p.m.
1. Discussion With Brock Long Seminar	2. Chat With the State Director – Going Forward Seminar
	3. Atlantic Basin Hurricane Season Prediction/Outlook-2019 Seminar (this seminar will be repeated as a Workshop on Friday)

1. **Discussion With Brock Long**: Description Coming Soon!
2. **Chat With the State Director - Going Forward**: This seminar will give conference attendees the opportunity to meet the new Director of the Florida Division of Emergency Management. Here his thoughts on where we are and where we plan to go as Florida's improves its readiness and resiliency to hurricanes and tropical systems. It's also your chance to offer your thoughts as well and hear his response. Please join us for a constructive conversation with our new State Director.
3. **Atlantic Basin Hurricane Season Prediction/Outlook-2019**: Colorado State University's initial forecast for the 2019 season will be presented and discussed in detail. An update on the current and projected trends in both El Niño and Atlantic sea surface temperatures and pressures will also be presented. ***Please be advised this seminar will be repeated as a Workshop on Friday 10:30-Noon.***
