

# **The Florida Long-Term Recovery Community: If not us, then who?**

# Introductions

- **Michelle Lockett, Executive Director | Monroe County LTRG**
- **Rodney Andreasen, Director | Jackson County Emergency Management**
- **Gabe Tischler, Emergency Management Specialist | Catholic Charities FL**
- **Robbie Sofaly, Community Recovery Manager | American Red Cross**

# Ground Rules

- **Active participation, not passive observation**
- **Be present, no (little) distraction**
- **Respect, discuss ideas not people or groups**
- **Emergencies**

# Objectives

- **By focusing on Irma & Michael long-term recovery operations;**
  - **Identify & discuss aspects of the transition from immediate recovery to long-term recovery**
  - **Explore program successes and challenges with respect to community differences**
  - **Brainstorm how to better integrate with community partners**
  - **Identify lessons learned & best practices to build a sustainable long-term recovery model**
  - **Empower participants to take action and better ready themselves and their communities with available resources**

# Exploring Where We've Been

- Readiness prior to Irma and Michael
- Transition from response & relief to recovery
- Irma LTRO Successes & Challenges
- North Florida Inland LTRG Successes & Challenges

# Where Are We Headed?

- Examination of different development phases
- Practices focused on capacity building and sustainability
- Integration with local government and community partners
- How do we get involved? What resources are available and how does my community fit into it?

# Review of Objectives
