

***"The greatest takeaway from attending the GHC was the exposure to the emergency management community. Getting to meet subject-matter experts from all parts of the discipline was phenomenal..." - Juan Lugo, 2019 program participant***

### **Student Program**

Since 2010, the Governor's Hurricane Conference® has funded a student program. This program gives students the opportunity to attend the conference and network with emergency management professionals from local, state, and federal government as well as the private sector.

Students have had the opportunity to engage with high ranking state and federal officials including the current and former directors of the Florida Division of Emergency Management and former FEMA Administrator, Brock Long, among others, through exclusive meet-and-greet sessions.

2021 will be the 12th year of the GHC Student Program. To expand on our success in engaging the future of emergency management with unparalleled professional development opportunities, we are asking for your help.

**In 2021, we plan to continue fulfilling our mission to empower the next generation of emergency management professionals. A goal that we cannot accomplish without your support!**
